

Sirs:

I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide, in a free and open society, a wide range of programming, including instant traffic & weather, which the American public both demands and deserves.

Satellite radio provides a wide variety and quality of services that are not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear.

Regards,

John Waclo
